His last performice in this line is a letter in which says the time for the resumption specie payments ought not to be stponed beyond the 1st of Janu v, 1871.

THE Chicago Journal (Radical) vors the repeal of the tenure-oflice law, "not because its enact ent was wrong, but solely because re occasion for it will not exist fter the 4th of March, and there re serious practical objections to It is a proper and constituonal law, according to this Radial light, but now that an adminisration that is supposed will be in armony with Congress is about to be naugurated, this law should be reealed because "there are serious practical objections to it." It is hus that Radicals satisfy their "conscientious scruples" about removing the fetters with which they bound the present President.

THE Indiana lynching affair seems likely to afford some international excitement after all. The New Albany Ledger states that two Canadian gentlemen were in that city on the 1st inst., making inquiries in regard to the lynching of the Renos and Anderson. One of them was a son of the magistrate who committed the prisoners in Canada, Their inquiries were particularly directed to the case of Anderson, who is claimed to have been a fifty dollars-and there are com-British subject. THE Freedmen's Bureau, which save up the ghost at the instant the old year expired, has cost, by offi cial figures, during the three years of its existence, the round sum o \$2,517,240. The cost of this piece of colored convenience in Tennes see was \$156,000. These figures represent only the official salaries of the bureau. The expense of the army in the South, maintained to co-operate with the Bureau, has been found to be several scores of millions of dollars yearly. The amount stated above only include salaries paid to officers, whose business it has been to deal out government supplies to the negroes to the extent of at least five times the figures paid to the bureau hire

Ir appears to be pretty well settled that there will be a March session of the forty-first Congress, and since that has been determined upon, the Radical candidates for the Speakership of the House of Representatives are said to be forming their combinations. There are several gentlemen who have aspi rations in that direction, among whom are Blaine, of Maine; Dawes and Banks, of Massachusetts; Gar. ield, of Ohio; Cullom, of Illinois nd Kølley, of Pennsylvania Blaine and Dawes are the only cantidates who are regarded in Wash ngton as baying any chance, and Blaine, by all probabilities, has the clamored vociferously for negro sufnside track. THE PREEDMEN'S BUREAU. On the 1st instant this institution eased to exist except in its "educa tional feature." Whether the Bureau will not be wholly con mued in the three unreconstructed States or not, depends upon the ction taken on Mr. Pomeroy's bill providing for that very thing. The Military Committee have the bills under advisement, and, if made : party consideration, the bureau can be revived before the work of dis bandment has begun. Senator Summer is in favor of retaining the whole system in the Southern States irrespective of reconstruction, to keep the Southern whites from the violence he affects to apprehend they will visit on the blacks. It is the general sentiment, however that the bureau having failed to answer the purpose of its establishment, the building up of a great negro party at the South had better wind up. Senator Wil son is in favor of this idea himself, and so is Gen. Howard. Any investigation into the affairs of the concern, any auditing of its accounts, seems to be abandoned, and this in the face of the fact that \$350,000 of government money are believed to be fraudulently held by an institution known as the Howard University located at Washington city. Several months are expected to clapse before the bureau can wind up all its affairs, but its legal

life ends with the year.

TENNESSEE Coal and Railroad Comp'y

FOR SALE! THIS PROPERTY CONSISTS OF A COAL THIS PROPERTY CONSISTS OF A COAL Mine, which, as now developed, has no equal in the Southern States. It has been penetrated until there is 4½ miles of track (mostly laid with iron) under the ground. The coal is, beyond question, inexhaustible. It is a good grate coal; and for making iron, burning in shops, making steam, and especially in its freedom from impurities, as shown in the preservation of engines using it, it has no equal in the Southern States, and no superior anywhere. In addition to the mine, the company owns, lying around the mines, about 18,000 acressed land, from 1,500 acres to 3,000 of which is coal land; I miles of railroad, now in good order, with two first-rate engines, and about 100 cars; also, a first rate saw and grist mill, several good dwelling houses and about 60 miners houses, 125 miners cars and miners tools.

Now the property is producing from 5,000 to 6,000 bushels of coal per day, with a permanent contract for freight for ten years, and with contracts for the saic of coal at Nashville, Atlanta and Huntsville for five years. Tagged business man, or to a number of gentlemen who wish to make a investment, and who will put forward a good business man, a bargain will be given in the sale of one half this property, which as a certainty in the specific value of the property cannot be elsewhere found in Tennessee. The mercantile business connected with this enterprise amounts to more than \$100,000 per amount, and the real estate belonging to the company is rapidly growing in value. The property is free from litigation and the titles clear. This is not an investment upon future prospects and contingencies, but any one wishing to make the purchase can so to the mines, see all the property, examine the charter, which is a liberal one, see exactly what the daily business is, and determine upon fasts, and not speculation, what will be the charter of the investment.

Believing that no such offer has been made for an investment in Tennessee property since the war, the undersigned asks that men of enterprise at once confer with him as to further particulars, price, etc.
